Dear Presentation Solutions:

"The Max Graphic System" has been one of the BEST purchases that I have ever made for my students and my classroom! The decal and bumper sticker machine have gained the interest of every student! Plus, as a teacher, I can incorporate technology, graphic design layouts, and teach entrepreneurship.

My students and I have found so many uses for the machine; I could not even begin to list everything. Students have used the machine for fundraising activities for SkillsUSA and have secured fundraising contracts to create sports decals for Little League, Small Fry Football, and the Youth Soccer League, to name a few. In addition, Collision Repair class has benefited from the machine with graphic designs, pin striping, and decal replacement.

"The Max Graphic System" delivered every benefit that was described in the presentation, PLUS my students find new uses for the machine everyday like creating personalized cell phone, skateboard, and guitar decals. The machine and software are limited only to the imagination of the students.

I would be happy to talk with anyone about this great product and the great service I have received from Presentation Solutions! If you have any questions, please call me at Fleming County High School, 606-845-6601, ext. 2417, or e-mail me at minnie.mccord@fleming.kyschools.us.

Sincerely,

Minnie McCord, Instructor
